

## Automatic Paper Core Making Machine

### **Model:PPD-325**

Automatic paper core making machine is used to produce a series of paper tube, including fireworks tube, rolls of cloth core,electricity aluminium core,cotton core , fax paper core, preservative film core, toilet paper core and so on.

### **Features:**

1. Adopting imported PLC logic control system and single electricity control box, the speed of mainframe is adjusted by transducer which can save 30% electricity than by common electromagnetic.
2. The control circuit adopts intergrated mother with insert and pull terminal connection,every terminal has function instruction.It is more intuitional,convenient and scientific to be used ,repaired and preserved.
3. Having wireless remote-control manipulator,it can control machine start up or stop and running speed with 100 meters.

## JIAXING PPD PACKAGING MACHINERY CO LTD

Tel: +86-573-82571515 Whatsapp/Wechat: 0086 137 3685 9272

4. It is an idea machine with high precision of pneumatic cutting head,using impoted blade to cutting quick can quickly return,because of return-alleviator cutting station.And it can adjust cutting location precise ,improve incision smooth and beautiful.

5. It's a super silence design (national patent), tight convey frame, high efficiency , low maintaince.

### Technical parameter:

Name:Automatic paper core making machine

Model:PPD-325

Max paper core diameter:100mm

Min paper core diameter:10mm

Max paper core thickness:5mm

Min paper core thicknedd:1mm

Cutting way:single round knife cutting

Production speed:3-20m/min

Voltage:380V,3ph

Machine size: 2600\*1600\*1500mm(L\*W\*H)

Weight:1000kg
